Reject the Puente Power Project

Dear Submit your public comment,

Please reject the Puente Power Project.

This project would damage California communities. The city of Oxnard has some of the highest asthma rates in the state. We should be working to clean the air, not add to the pollution.

The project is uneconomical and unnecessary. Puente would cost more than twice as much as it would cost to meet the same electricity needs with renewable sources. Clean energy solutions can create more good, local jobs in the Oxnard area for a fraction of the cost.

This is a project whose time has passed. Now more than ever, Californias leadership is essential to lead our nation toward a clean energy economy we aren't going to get there by building uneconomical projects that lock in more pollution and dependence on fossil fuels.

If California is to meet our climate goals, we must reject the Puente Power Project.

Sincerely, Matthew Reid
