

## DOCKETED

<b>Docket Number:</b>	17-IEPR-12
<b>Project Title:</b>	Distributed Energy Resources
<b>TN #:</b>	219946
<b>Document Title:</b>	Update on Demand Response and Energy Efficiency Roadmap Maximizing Preferred Resources
<b>Description:</b>	6.29.2017 Presentation by Delphine Hou of CA ISO
<b>Filer:</b>	Raquel Kravitz
<b>Organization:</b>	California Energy Commission
<b>Submitter Role:</b>	Commission Staff
<b>Submission Date:</b>	6/28/2017 8:54:59 AM
<b>Docketed Date:</b>	6/28/2017

# Update on Demand Response and Energy Efficiency Roadmap: Maximizing Preferred Resources

Delphine Hou  
Manager, State Regulatory Affairs, California ISO

2017 IEPR Joint Agency Workshop on Integration of Distributed Energy Resources on the California Grid  
June 29, 2017

# Demand Response and Energy Efficiency Roadmap Goals

1. Ensure consistent assumptions in ISO, CEC, and CPUC planning and procurement processes
2. Modify load shape to reduce resource procurement requirements, mitigate over-generation, and moderate ramp
3. Clarify ISO needs for DR and EE to be most effective in planning and operations
4. Ensure resources are procured and developing to meet capability, timing, and location needs
5. Increase DR program and pilot participation in ISO market developing operations experience and providing feedback for policy refinement

# Next steps

- Continue to collaborate across agencies
- “Next generation” of demand response and energy efficiency
- Future grid needs
