ROBERT SARVEY’S PETITION TO INTERVENE

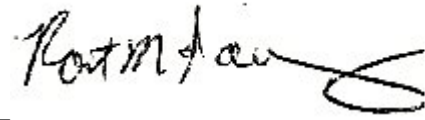

Robert Sarvey hereby petitions to intervene in the proceeding for the Application for Certification of the Stanton Energy Reliability Center. Section 1207 of the Commission’s Rules of Practice and Procedure allow that, “Any person may file with the Docket Unit or the presiding committee member a petition to intervene in any proceeding. The petition shall set forth the grounds for the intervention, the position and interest of the petitioner in the proceeding, the extent to which the petitioner desires to participate in the proceedings, and the name, address, and telephone number of the petitioner.”

Petitioner is a resident of the State of California who is gravely concerned about California’s over reliance on fossil fuel generation and the propensity to site fossil fuel facilities in minority communities.

Petitioner is concerned about the global warming impacts of this facility. Petitioner believes that additional fossil fuel generation is not needed as renewable resources and storage are viable alternatives to the project. Petitioner is also concerned about the ratepayer impacts of the additional unneeded fossil fuel generation.

If granted intervention petitioner would like to participate in the topics of Alternatives, Air Quality, Public Health, and Environmental Justice.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robert Sarvey", with a long, sweeping flourish extending to the right.
