**Subject: MISSION ROCK ENERGY CENTER (15-AFC-02) STATUS REPORT #11**

Staff submits the following status report #11 for the Mission Rock Energy Center (Mission Rock).

## **Preliminary Staff Assessment Status**

Staff has been fully engaged in the analysis component of the Mission Rock proceeding. The Alternatives and Environmental Justice sections will be concluded by next week, and the Air Quality/GHG and Public Health sections are awaiting the Preliminary Determination of Compliance (PDOC) from the Ventura County Air Pollution Control District (VCAPCD). All remaining sections have been submitted by staff and are currently undergoing internal legal and management review. Staff has now predicated its work on the assumption that the PDOC will arrive at any day, based on input from VCAPCD staff. Staff continues to push ahead with its analyses and PSA section submittals and internal review.

## **June 12, 2017 Committee Status Conference follow-up**

The PSA remains scheduled for publication 45 days following the release of the PDOC by the VCAPCD. In anticipation of agency distribution of the PSA, the Committee asked staff during the June 12, 2017 Status Conference to docket its complete agency contact list for the Mission Rock proceeding. This task was completed on June 22, 2017, in order that the agency contacts could be added to the Proof of Service list.
