Sacramento, California 95814

Docket Number: 16-HERS-01

Project Title: greenNet Registry LLC HERS Providers' Application and Rating System for Certification for Residential and Non-Residential Buildings, Additions and Alterations for the 2016 Standards.

Dear Director Oglesby:

On behalf of greenNet Registry LLC, I am pleased submit this Application for Confidential Designation and supplemental documentation in response to Title 20, S. 1674 and Joint Appendix 7, for greenNet to become a Certified HERS Provider and Rating System for the 2016 Standards.

Enalasys Corporation will be applying as our Third Party Quality Control Program to be overseen by the greenNet Providership upon Commission approval.

Per Section 2505 of Title 20 of the California Code of Regulations, greenNet requests Confidential Designation for certain documents included with our application. These documents are submitted separately and identified as "Confidential" and "Indefinitely Confidential" in the "greenNet Registry LLC Exhibit List". We request confidentiality of these items for 4 Years (equaling 1 code cycle of 3 years +1 extra year) to prevent statewide HERS applicants or Raters from discovering, using, attaining knowledge of, copying or duplicating any elements of, or revealing trade secrets of our electronic rating system, computer engineering, software programming, secured network, coding, business strategy, training, testing, quality assurance materials, or written materials which took significant time, talent and treasure to develop, design, program and produce for the greenNet rating system and HERS providership. This information has not been previously disclosed to the public, and disclosure would allow competitors to discover, view, duplicate, copy, photograph, know, rewrite, rework or game greenNet proprietary information causing irreparable damage to our business. We request Indefinite Confidentiality for personal information of greenNet and Enalasys owners, shareholders, partners, affiliates, personnel, and the full Exhibit list, which have not been previously disclosed to the public.

4 Years (equaling 1 code cycle of 3 years +1 extra year) is sufficient time for greenNet confidential information to be disclosed as the exhibit contents will be outdated and disclosure of the information will pose less of a competitive disadvantage at that time. Personal information of shareholders of greenNet, Enalasys, partners, affiliates, and information on personnel should remain Confidential indefinitely.

Thank you for your review and consideration of our application. We look forward to your favorable response for greenNet to be certified as a California HERS Provider.

Respectfully,

John Carrieri, Manager
greenNet Registry LLC
