Subject: MISSION ROCK ENERGY CENTER (15-AFC-02) STATUS REPORT #13

Staff submits the following status report #13 for the Mission Rock Energy Center.

Preliminary Staff Assessment Status

Staff has completed the vast majority of analyses that comprise the Mission Rock Energy Center (MREC) Preliminary Staff Assessment (PSA). The Air Quality/GHG and Public Health sections are still awaiting information from the Preliminary Determination of Compliance (PDOC) from the Ventura County Air Pollution Control District (Ventura APCD).

Kerby E. Zozula, Manager of the Engineering Division at Ventura APCD, emailed Energy Commission staff that the air quality impact assessment modeling and health risk assessment portions of the PDOC have both been completed by the San Joaquin Valley APCD and approved by Ventura APCD. The San Joaquin Valley APCD is preparing a draft of the PDOC and will forward it to Ventura APCD for review and approval.
