In the Matter of:

Application For Certification
**STANTON ENERGY RELIABILITY
CENTER**

DOCKET NO. 16-AFC-01

**STANTON ENERGY RELIABILITY
CENTER, LLC's STATUS REPORT No. 6**

In accordance with the Committee Scheduling Order dated May 1, 2017, Stanton Energy Reliability Center, LLC (SERC, LLC) has prepared this Status Report No. 6 to inform the Committee of the progress made in the review of the Application For Certification (AFC) for the Stanton Energy Reliability Center (SERC). The following summarizes the status of the Commission process since the filing of Status Report No. 5 on September 15, 2017.

Data Requests and Responses

SERC, LLC received Data Requests Set 3 from Staff on August 29, 2017 and docketed responses on September 22, 2017.

SCAQMD

SERC, LLC continues to work closely with the South Coast Air Quality Management (SCAQMD) to advance the publication of the Preliminary Determination of Compliance (PDOC). The District wrote a letter dated October 6, 2017 requesting additional information before it would publish the PDOC. SERC, LLC is working diligently to provide the information requested to the SCAQMD before October 31, 2017. With this additional information SERC, LLC believes the SCAQMD will have everything necessary to publish the PDOC in November 2017.

Also of note with the SCAQMD is the fact that the SCE EGT® installations at Center and Grapeland were recipients of the SCAQMD's 29th annual clean air award. This is a testament to the environmental attributes of the EGT® technology – the same technology

being employed at SERC. While the Center and Grapeland project were retrofits of existing units, SERC is slated to be the first new-build of this exciting new technology.

Dated: October 16, 2017

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Scott A. Galati", with a horizontal line extending to the right from the end of the signature.
