ACE Ash Landfill Separation Amendment Comment

Additional submitted attachment is included below.

October 26, 2017

Keith Winstead,
California Energy Commission
Siting, Transmission and Environmental Protection Division
1516 Ninth Street, MS 15
Sacramento, CA 95814-5512

Subject: ACE Ash Landfill Separation Amendment (Docket No. 86-AFC-01C)

Dear Mr. Winstead:

ACE Cogeneration Company (ACC) has reviewed the "Staff Analysis of the Petition to Separate and Terminate Jurisdiction over the Ash Landfill and Continue Use of an On-site Diesel Generator" (TN#221423) filed on October 6, 2017. ACC does not have any comments on the Staff Analysis, concurs with its conclusions, and agrees with the proposed conditions.

We appreciate your consideration of our request to separate the ash landfill from the remainder of the project and working with us during the amendment review.

If you have any questions, please call me at (760) 384-8172 or Bob Therkelsen at (541) 941-7805.

Sincerely,

A handwritten signature in blue ink that reads 'Larry Trowsdale'.

Larry Trowsdale
General Manager ACE Cogeneration Company, LP
