and Environmental
Protection Division

FILE:

PROJECT TITLE: Stanton Energy Reliability Center

Docket: 16-AFC-01

TECHNICAL AREA(S): Biological Resources

Email

Meeting Location:

NAME: Ann Crisp

DATE: June 28, 2017

TIME: N/A

WITH: Kelly Hart, Community Development Director for the city of Stanton

SUBJECT: Inquiry Regarding Biological Resources in the City of Stanton

COMMENTS: Staff prepared this report of conversation (ROC) to document correspondence between the staff and Kelly Hart, the community development director for the city of Stanton.

On June 28, 2017, Energy Commission Biological Resources staff, requested information via email regarding any potential laws, ordinances, regulations, or standards related to Biological Resources, which are typically enforced by the city of Stanton through a Conditional Use Permit or similar entitlement that should be addressed through the Energy Commission's in-lieu permitting authority as part of the Energy Commission's permitting process for the Stanton Energy Reliability Center.

On June 28, 2017, Kelly Hart replied that the city is a built out city with no natural resources, natural habitats, wetlands, or endangered species identified within the city, so there are no further laws, ordinances, or standards related to biological resources to consider.
