Notice of Availability *California Energy Demand* 2018-2030 Revised Forecast

On December 15, 2017, the California Energy Commission conducted a workshop to explore a range of perspectives on the future of electricity and natural gas demand in California over the next 12 years. Staff from the Energy Commission presented a 12-year forecast of electricity and natural gas consumption and electricity peak demand. Energy Commission staff presented details regarding the treatment of additional achievable energy efficiency (including efforts to achieve SB 350 energy efficiency targets), self-generation, electricity rates, hourly load forecasts, and climate change impacts on electricity and natural gas demand. The *California Energy Demand 2018-2030 Revised Forecast* will be considered for adoption at the February 21 Business Meeting and is now available for review at:

http://www.energy.ca.gov/2017_energypolicy/documents/#02212018
