

DOCKETED

Docket Number:	17-BSTD-02
Project Title:	2019 Title 24, Part 6, Building Energy Efficiency Standards Rulemaking
TN #:	222483
Document Title:	2-6-18 Presentation on Proposed 2019 Energy Code Part 1 Section 10
Description:	Presentation given by Joe Loyer at the 2-6-18 Commissioner Hearing on the proposed 2019 Energy Code.
Filer:	Adrian Ownby
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	2/8/2018 11:16:25 AM
Docketed Date:	2/8/2018

2019 Building Energy Efficiency Standards Lead Commissioner Hearing For 45-Day Language

California Energy Commission
Hearing Room A
(Arthur Rosenfeld Room)

February 6, 2018

Joe Loyer

Part 1, Section 10 – Administrative Regulations
(Sections 10-103, 103.1 and 103.2)

§10-103 –Permit, Certificate, Informational, and Enforcement Requirements for Designers, Installers, Builders, Manufacturers, and Suppliers

Minor edits for clarification only

§10-103.1 –Nonresidential Lighting Controls Acceptance Test Training and Certification

§10-103.2 –Nonresidential Mechanical Controls Acceptance Test Training and Certification

- Minor clarification of ATT/ATE decertification process:
 - ATTCPs must describe their process for a decertified ATT or ATE seeking recertification including eligibility requirements (if any).
 - ATTCPs may specify additional qualifications for participation in their programs, such as limiting participation to persons that are not currently listed as “decertified” by another ATTCP.
- Standardized use of the terms ATT, ATE, and ATTCP.
- Minor modifications to the reporting requirements for ATTCPs.
- Minor modifications to the application amendment process for ATTCPs.

§10-103.1 & .2 – (Continued)

Quality Assurance Requirements

- **§ 10-103.1(c)3F Lighting Controls – No Changes**
 - The ATTCP must perform a random sample of no less than one percent of each ATT's acceptance tests.
 - The ATTCP must perform randomly selected on-site audits of no less than one percent of each ATT's completed acceptance tests.
- **§ 10-103.2(c)3F Mechanical Systems – Substantive Changes**
 - The ATTCP must perform a random sample of no less than one percent of each ATT's acceptance tests.
 - The ATTCP must randomly select and shadow audit no less than one percent of each ATE's overseen projects, following the assigned ATT and observing their performance on the job site.

How to submit written comments

- **We strongly encourage submitting written comments via e-file.** Comments on the proposed 2019 Energy Code can be submitted to: <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=17-BSTD-02>.
- Comments on the proposed 2019 CALGreen can be submitted to: <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=17-BSTD-03>.
- Comments can also be submitted physically or by e-mail, here:
