Attachments: W. Armenta_CEC.pdf

CEC Staff,

In response to a CEC proposal to rely on building departments as opposed to HERS Raters to conduct Solar PV inspections, please accept my attached letter for CEC's consideration during the public commenting period leading up to finalizing the 2019 code updates. As a certified HERS Rater, I am in favor of the continuation of HERS Raters providing Solar PV inspections for the reasons included in my letter.

Thank you for your consideration.

Will Armenta
HERS Rater
Energy Inspectors
