Project Title: Portable Electric Spas and Battery Charger Systems Appliance Efficiency Rulemaking

Project Applicant: California Energy Commission

Project Location (include county): Statewide

Project Description:

The project is a proposal for statewide regulations to update the levels of efficiency required for portable electric spas, which are not covered by federal appliance efficiency standards. The required new efficiency standards apply to newly manufactured products and are attainable through normal and existing manufacturing processes. The proposed regulations include modifications to existing appliance marking requirements for battery charger systems, so that they only apply to state-regulated battery chargers instead of applying to both state- and federally regulated battery chargers.

This is to advise that the California Energy Commission has approved the above (X) Lead Agency or [] Responsible Agency

described project on 04/11/2018 and has made the following determinations regarding the above (date) described project.

- 1. The project [] will [X] will not have a significant effect on the environment.
2. [] An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. [X] A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [] were [X] were not made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [] was [X] was not adopted for this project.
5. A statement of Overriding Considerations [] was [X] was not adopted for this project.
6. Findings [X] were [] were not made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

1516 9th St., Sacramento, CA 95814 or http://www.energy.ca.gov/appliances/2018-AAER-02/
