STATE OF CALIFORNIA

**STATE ENERGY RESOURCES CONSERVATION
AND DEVELOPMENT COMMISSION**

IN THE MATTER OF:

**TURLOCK IRRIGATION DISTRICT
EMISSION PERFORMANCE STANDARD
COMPLIANCE FILING**

Docket No. 18-EPS-01

I. INTRODUCTION

Pursuant to Public Utilities Code section 8341(e)(1), the Energy Commission established a greenhouse gases emission performance standard (EPS) of 1,100 pounds carbon dioxide per megawatt hour, as codified in Title 20 of the California Code of Regulations, sections 2900 et seq. The Energy Commission is responsible for reviewing all long-term financial commitments entered into by local publicly owned electric utilities for compliance with the EPS.

II. FINDINGS

- a. On April 4, 2018, the Turlock Irrigation District (TID) submitted a compliance filing requesting that the Energy Commission find that TID's Power Purchase Agreement with ARP-Loyalton Cogen LLC for electricity from the Loyalton Biomass Plant be determined to be compliant with the EPS;
- b. Energy Commission staff reviewed TID's filing and found it complete. Based on its review, staff recommended that the procurement be found to be in compliance with the EPS; specifically, staff concluded that the facility listed in the PPA is determined to be compliant with the EPS under section 2903(b)(2) of the Public Resources Code; and
- c. The Energy Commission concurs with staff's recommendation that TID's compliance filing is complete and that the contract with ARP-Loyalton Cogen LLC, as described in the compliance filing, complies with the EPS.

III. CONCLUSION AND ORDER

The California Energy Commission hereby adopts staff's recommendation and orders that the long-term financial commitment described in TID's compliance filing complies with the Energy Commission's Greenhouse Gases Emission Performance Standard, as codified in Title 20 of the California Code of Regulations, section 2900 et seq.

CERTIFICATION

The undersigned Secretariat to the Commission does hereby certify that the foregoing is a full, true, and correct copy of an Order duly and regularly adopted at a meeting of the California Energy Commission held on May 9, 2018.
