Aliso canyon is not needed for energy reliability tft

I have to sell my house at 19431 Crystal Ridge Lane, Porter Ranch, CA. 91326 and moved more Than 30 Miles away because of my health problems due to Aliso canyon located to closed with in proximities to residences, schools, parks, shopping centers andAliso canyon is not needed for energy reliability, because Aliso canyon is not safe, it was never safe and it will never be safe.
