DOCKETED	
Docket Number:	18-IEPR-08
Project Title:	Energy Equity
TN #:	223598
Document Title:	Barriers Study Implementation Update
Description:	Presentation by Michael Sokol for May 30, 2018 Joint Agency
	Workshop on Clean Energy in Low-Income Multifamily Buildings
Filer:	Stephanie Bailey
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	5/29/2018 12:59:55 PM
Docketed Date:	5/29/2018

Barriers Study Implementation Update

Joint Agency Workshop on Clean Energy in Low-Income Multifamily Buildings

May 30, 2018

Michael J. Sokol California Energy Commission

The Clean Energy and Pollution Reduction Act of 2015

- >50% renewable energy by 2030
- **➤ Doubling energy efficiency savings by 2030**
- > Encourages widespread transportation electrification
- Integrated resource planning to reduce greenhouse gas emissions
- Address barriers for low-income residents & disadvantaged communities

Low-Income Barriers Study

"conduct and complete a study on...
Barriers to, and opportunities for, solar photovoltaic... other renewable energy by low-income customers... contracting opportunities for local small businesses in disadvantaged communities... energy efficiency and weatherization investments..."

Report adopted December 14, 2016

http://www.energy.ca.gov/sb350/barriers_report/

California Energy Commission

COMMISSION FINAL REPORT

Low-Income Barriers
Study, Part A: Overcoming
Barriers to Energy
Efficiency and Renewables
for Low-Income Customers
and Small Business
Contracting Opportunities
in Disadvantaged
Communities

California Energy Commission
Edmund G. Brown Jr., Governor

December 2016 | CEC-300-2016-008-CMF

Structural Barriers

- Low home ownership rates
- Complex needs, ownership, and financial arrangements for low-income multifamily housing
- Insufficient access to capital
- Building age
- Remote or underserved communities
 - High heating / cooling costs
 - Limited access to utility efficiency programs

Program / Policy Barriers

- Market delivery
- Program integration
- Data limitations
- Unrecognized non-energy benefits

Principal Recommendations

- >Establish a coordinating task force
 - Key Focus on Addressing Issues in Multifamily Buildings
- >Enable the economic advantages for community solar
- ➤ Strategize on effective green workforce and education goals in disadvantaged communities
- Continue developing a series of energy upgrade financing pilot programs
- >Collaboration to establish common metrics and collect and use data systematically across programs

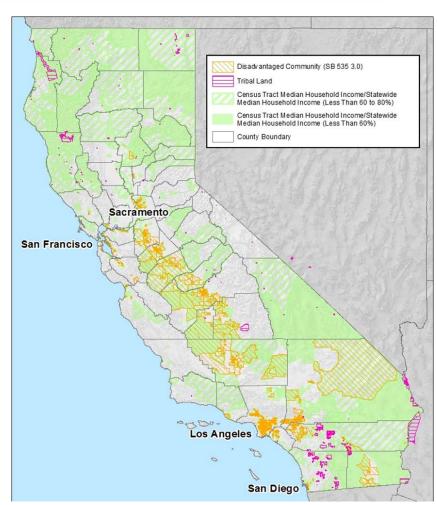

Additional Recommendations

- > Expand opportunities for renewable energy
- ➤ Enhance affordable housing tax credits/credit enhancements supporting clean energy upgrades
- Establish a pilot program for multiple regional onestop shops
- > Heightened consumer protection
- Collaboration with qualified CBOs
- > Research, development, demonstration, and market facilitation programs include targeted benefits
- > In-depth study to increase contracting opportunities

Energy Equity Indicators

- Initial <u>staff draft paper</u> posted in May 2017
- Draft <u>tracking progress</u> published in April 2018
- Final tracking progress expected in June
- Move to interactive mapping tool
- Annual updates moving forward

California Tribal Lands, SB 535 Disadvantaged Communities, and Low-Income Communities

Disadvantaged Community Advisory Group

- ➤ "Establish an advisory group consisting of representatives from disadvantaged communities... shall review and provide advice on programs proposed to achieve clean energy and pollution reduction..." PUC § 400(g)
- Kickoff meeting held April 2018 in Sacramento, future meetings at least quarterly
- ➤ More info at: http://www.energy.ca.gov/sb350/DCAG/

Next Steps

- Participate in future interagency task force meetings to support implementation of Barriers Study recommendations
- Continue coordination with other state and local agencies and key stakeholders
- Regional community outreach as needed
- Tracking progress on energy equity and SB 350 goals
