Notice of Staff Workshop on a Hydrogen Station Capacity Model (HyC)

California Energy Commission staff will conduct a workshop to develop consensus on applications of a hydrogen refueling station capacity model (HyC) to be used when determining the station’s daily dispensing capacity number. The capacity number may be considered as input to the California Energy Commission draft solicitation concepts and by the California Air Resources Board (CARB) in their Low Carbon Fuel Standard (LCFS) calculations.

Background

The HyC calculates the daily dispensing capacity of a hydrogen refueling station used to fill fuel cell electric vehicles (FCEV). HyC determines station capacity with specified demand scenarios. HyC inputs potentially include: station storage volumes, station configurations and pressures, compressor performance, vehicle demand, and production and delivery methods for hydrogen refueling stations. The workshop participants will review HyC, discuss the results of test cases generated from the HyC, and work toward consensus of a hydrogen refueling station verification method.

Public Comment

Oral comments: Staff will accept oral comments during the workshop. Comments may be limited to three minutes per speaker. Any comments may become part of the public record in this proceeding.

Written comments: Written comments should be submitted to the Dockets Unit **by 5:00 p.m. on June 25, 2018**. Written comments will be also accepted at the workshop. However, the Energy Commission may not have time to review them before the conclusion of the meeting.

Please note that your written and oral comments, attachments, and associated contact information (e.g. your address, phone number, email address) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

The Energy Commission encourages use of its electronic commenting system. Visit the website at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=18-HYD-02>.

This will take you to the page for adding comments to this docket. Please enter your contact information, any organization name, and a comment title describing the subject of your comments. You may include comments in the box titled "Comment Text" or attach a file in a downloadable, **searchable format** in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf). Maximum file size is 10 MB.

Written comments may also be submitted by emailing them (include docket number 18-HYD-02 and Hydrogen Station Capacity Model (HyC) Workshops in the subject line) to the Docket Unit at:

docket@energy.ca.gov

If you prefer, you may send a paper copy of your comments to:
