ACTION**

Government Code Section 11349.3

OAL Matter Number: 2018-0416-01

OAL Matter Type: Regular (S)

This rulemaking action enhances energy industry data reporting requirements in response to the expansion, pursuant to Senate Bill 350 (Stats. 2015, ch. 547) of California Energy Commission (CEC) reporting responsibilities concerning the hourly and seasonal impact of efficiency savings on statewide and local demand for electricity and natural gas. The regulatory changes require various market participants to provide the more granular data needed by the CEC to generate, in its biennial Integrated Energy Policy Report, the disaggregated forecasts and assessments identified in statute.

OAL approves this regulatory action pursuant to section 11349.3 of the Government Code. This regulatory action becomes effective on 7/1/2018.
