STANDARDS COMMISSION

Dear Commissioners:

Please find enclosed my letter to Robert B. Weisenmiller of the California Energy Commission. The plan to put solar on all new homes is not reasonable. I understand we have a housing crisis, and increasing the price of new homes will not help. Solar has its place as part, but only part, of an energy solution.

Please vote against this bad idea.

Sincerely,

Tamara Martfeld

Dear Mr. Weisenmiller:

Enclosed are my gas and electric bills. Please explain to me how I could save \$80 per month if I had solar on my home. Please realize that \$20.30 of the electric bill is a "system infrastructure fixed charge" which would exist in my area regardless of having solar, and was actually put in place because of homes going solar.

I eagerly await your reply.

Sincerely,

Tamara Martfeld
