4 CROSS-EXAMINATION

5 BY MR. VESPA:

6 Q Okay. Mr. Bryson, good afternoon.

7 A Good afternoon.

8 Q Okay. Let's first turn to page 79
9 of your opening testimony. That's SCE-01.
10 I'm at the very bottom, lines 18 to 19.

11 ALJ DE ANGELIS: You're on page?

12 MR. VESPA: Page 79.

13 ALJ DE ANGELIS: Thank you.

14 MR. VESPA: Q Tell me when you're
15 there.

16 A I'm there.

17 Q Okay. So here you reference as
18 part of the justification for the Stanton
19 facility you say that generation setting the
20 bar had the highest effectiveness factor in
21 meeting certain constraint that CAISO had
22 identified; is that correct?

23 A That's correct.

24 Q And then as support for that you
25 cite to CAISO's final 2015 and 2019 capacity
26 technical reports. And I had a couple
27 questions about those.

28 A Okay.
