Background

Commissioner Hochschild, the IEPR Lead Commissioner, issued a scoping order on March 20, 2018, that identified topics that will be covered in the *2018 IEPR Update* proceeding. As detailed in the scoping order, the *2018 IEPR Update* is composed of two volumes. The first volume, which is being considered for adoption, is a high-level summary of the innovative energy policies California has implemented in recent years and is titled, *Toward a Clean Energy Future*. The second volume will provide a more detailed follow-up of several energy

issues examined in the 2017 IEPR and will encompass new analytical work, as well as significant opportunities for public participation.

All workshop documents, including agendas, background material, transcripts, presentations, and public comments, are available at www.energy.ca.gov/2018_energypolicy/documents/index.html.
