Notice of Staff Workshop on Appliance Efficiency Pre-rulemaking for General Service Lamps (Expanded Scope)

California Energy Commission staff will conduct a public workshop to seek comments from interested parties regarding staff analysis and the draft appliance efficiency proposal for general service lamps. This topic will be considered as amendments to the Appliance Efficiency Regulations (Title 20, California Code of Regulations, Sections 1601 through Section 1609). The public workshop will be held on:

Tuesday, August 28, 2018

10:00 a.m.

Background

Energy Commission staff released a draft staff report containing an analysis of general service lamps. This report presents the staff's proposal to add and revise definitions related to general service lamps, define low-lumen lamps, and set minimum efficiency standards for low-lumen lamps. General service lamps are subject to existing state efficiency standards which require a minimum lamp efficacy of 45 lumens per watt for general service lamps manufactured on or after January 1, 2018, and offered for sale in California.

Staff proposes to amend the definition of general service lamp and to amend and add related definitions. These definitions will align with those established in two final rules published by the U.S. Department of Energy on January 19, 2017. Amending the

definition of general service lamp would broaden the lamp types that are subject to the existing general service lamp standard, effectively expanding the scope of products for which low efficacy incandescent, including halogen, lamps could not be offered for sale in California.

Public Comment

Oral comments. Staff will accept oral comments during the public workshop. Comments may be limited to 10 minutes per speaker. Any comments will become part of the public record in this proceeding. If you wish to present during the workshop, please contact Patrick Saxton at Patrick.Saxton@energy.ca.gov or (916) 654-4274 and provide any presentation material by 5:00 p.m. on August 24, 2018. Please note that any presentation materials become part of the viewable public record and should not exceed ten minutes during the workshop.

Written comments. Written comments should be submitted to the Dockets Unit by **5:00 p.m. on September 17, 2018**. Written comments will be also accepted at the public workshop, however, staff may not have time to review them before the conclusion of the meeting.

Please note that your written and oral comments, attachments, and associated contact information (e.g. your address, phone number, email address, etc.) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

The Energy Commission encourages use of its electronic commenting system. Visit the website at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=17-AAER-07>.

This will take you to the page for adding comments to this docket. Please enter your contact information, any organization name, and a comment title describing the subject of your comments. You may include comments in the box titled "Comment Text" or attach a file in a downloadable, **searchable format** in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf). Maximum file size is 10 MB.

Written comments may also be submitted by e-mailing them (include the docket number 17-AAER-07 and "Appliance Efficiency Pre-rulemaking for General Service Lamps (Expanded Scope)" in the subject line) to the Docket Unit at:
