Notice of Staff Webinar on the California Vehicle-Grid Integration Roadmap Update

Staff from the California Energy Commission, California Public Utilities Commission (CPUC), California Air Resources Board (CARB), and California Independent System Operator (California ISO) will conduct a webinar workshop to kick off the process to update the California Vehicle-Grid Integration (VGI) Roadmap on:

Thursday, September 6, 2018
10:00 a.m. – 12:00 p.m.
CALIFORNIA ENERGY COMMISSION
Webinar
Sacramento, California

Remote Access Available by Computer or Phone via WebEx™
(Instructions below)

Background

The California Energy Commission is leading efforts to update the state's roadmap to effectively integrate electric vehicles with the electrical grid to provide grid services and promote grid stability while meeting driver mobility needs. The Energy Commission's partners in this effort include the California ISO, CPUC, CARB, and other stakeholders.

In 2012, Governor Edmund G. Brown Jr. issued Executive Order B-16-2012, setting a target of 1.5 million zero-emission vehicles (ZEV) on California roads by 2025. To help achieve this goal, an interagency working group on ZEVs developed the 2012 ZEV Action Plan, which identified activities to advance California's ZEV goals—including the development of the 2014 California VGI Roadmap.

The California ISO, in coordination with the Governor's Office, the Energy Commission, and the CPUC developed the 2014 VGI Roadmap
<http://www.caiso.com/informed/Pages/CleanGrid/Vehicle-GridIntegrationRoadmap.aspx>.

The Energy Commission's *2017 Integrated Energy Policy Report* (IEPR) recommended updating the roadmap to reflect "the needs to use open standards, to return the value of grid integration to stakeholders, and to commercialize prior investments in research and maintain leadership in advanced technology development."

The Energy Commission, CPUC, CARB, and California ISO will work with stakeholders through a public process to update the roadmap to reflect these issues and include actions the state can take to advance VGI and help meet the state's 2025 ZEV adoption goals. The update will also include actions the state can take to advance the goals established by the Governor's Executive Order B-48-18 to put at least 5 million ZEVs on California roads by 2030 and install 250,000 electric vehicle chargers by 2025. The update will also reflect advancements in VGI technology.

Staff has developed a proposed framework and topics for the roadmap update, including a proposed matrix of VGI roadmap goals and the problems/issues to address to achieve the goals. Staff's proposed framework and topics will be available prior to the webinar at <http://www.energy.ca.gov/transportation/vehicle-grid-integration/documents/>.

Staff is seeking public input on the framework and topics, specifically the matrix of VGI roadmap goals and associated problems/issues. Public feedback on the VGI matrix will inform the discussion topics and activities planned for future VGI roadmap workshops and activities.

Agenda

Staff will present the approach and schedule for the roadmap update, as well as the matrix that includes proposed VGI roadmap goals and the problems/issues to address to achieve such goals.

Public Comment

Oral comments. Staff will accept oral comments during the webinar. Comments may be time-limited (e.g., five minutes per speaker). Any comments may become part of the public record in this proceeding.

Written comments. **Written comments should be submitted to the Dockets Unit by 5:00 p.m. on September 21, 2018.** Written comments will also be accepted before and during the webinar; however, the Commission may not have time to review them before the conclusion of the webinar.

Please note that your written and oral comments, attachments, and associated contact information (e.g. your address, phone number, email address) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

The Energy Commission encourages use of its electronic commenting system. Visit the website at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=18-MISC-04>.

This will take you to the page for adding comments to this docket. Please enter your contact information, any organization name, and a comment title describing the subject of your comments. You may include comments in the box titled "Comment Text" or attach a file in a downloadable, **searchable format** in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf). Maximum file size is 10 MB.

Written comments may also be submitted by emailing them (include the docket number 18-MISC-04 Vehicle-Grid Integration Roadmap in the subject line) to the Docket Unit at:

docket@energy.ca.gov

If you prefer, you may send a paper copy of your comments to:

California Energy Commission
Docket Unit, MS-4

1516 Ninth Street
Sacramento, CA 95814-5512

Public Adviser and Other Commission Contacts

The Energy Commission's Public Adviser's Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, at PublicAdviser@energy.ca.gov or (916) 654-4489, or toll free at (800) 822-6228.

If you have a disability and require assistance to participate, please contact Poneh Jones at poneh.jones@energy.ca.gov or (916) 654-4425 at least five days in advance.

Media inquiries should be sent to the Media and Public Communications Office at mediaoffice@energy.ca.gov or (916) 654-4989.

If you have questions on the subject matter of this meeting, please contact Eli Harland, Eli.Harland@energy.ca.gov or (916) 654-5148.

Remote Attendance

The only way to participate in this meeting is through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to audio via your computer or telephone. Please be aware that the meeting may be recorded.

VIA COMPUTER: Go to <https://energy.webex.com/ec>. If this event is shown on the list of events, click on its "Join" link. If it is not listed, click "Unlisted Events" on the left of your screen and enter meeting number **925 182 182**. When prompted, enter your name and email address. No meeting password is needed.

The "Join Conference" menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me."
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on "Use Computer Headset," then "Call Using Computer."

VIA TELEPHONE ONLY (no visual presentation): Call 1-866-469-3239 (toll-free in the U.S. and Canada). When prompted, enter the unique meeting number above. International callers may select their number from <https://energy.webex.com/energy/globalcallin.php>.

VIA MOBILE DEVICES: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/products/web-conferencing/mobile.html.

Please be aware that WebEx audio and on-screen activity may be recorded. WebEx Technical Support is available at 1 (866) 229-3239.

Muting

We greatly appreciate your cooperation in reducing unwanted noise on the audio connection by muting your line when you are not speaking. Mute your line rather than placing your phone on hold. Using WebEx, you may mute yourself by right clicking on your name in the panelists or attendees list and selecting "Mute." If you are only using a telephone connection, press "*6" once to mute and again to unmute.

Availability of Documents

Documents and presentations for this meeting will be available online at <http://www.energy.ca.gov/transportation/vehicle-grid-integration/documents/>.
