Notice of Staff Workshop

California Energy Commission staff will conduct a workshop to discuss proposed conditions of certification related to Geysers Power Company LLC's (petitioner) amendment petition for Geysers Socrates (Unit 18), Grant (Unit 20), and Quicksilver (Unit 16), which seeks to install permanent diesel engines for the plants' cooling tower wet down systems. The same petition applies to all three facilities.

Background

On December 21, 2017, the petitioner filed petitions to amend the three facility licenses in order to install a permanent diesel generator for the cooling tower wet-down system (TN 222036). On August 23, 2018, staff docketed its Staff Analysis (TN 224577) for the petitions, which included Worker Safety and Air Quality Conditions of Certification. The petitioner submitted comments on and suggested edits to staff's Worker Safety and Air

Quality Conditions of Certification on September 17, 2018 (TN 224740). After considering the petitioner's comments and suggested edits, staff docketed a revised Worker Safety Condition of Certification on October 15, 2018 (TN 224986). On October 18, 2018, the petitioner docketed further comments on, and a new set of suggested revisions to staff's Worker Safety and Air Quality Conditions of Certification (TN 225034). This workshop will provide an opportunity for staff and the petitioner to discuss these language changes and come to agreement on the text of the conditions.

All documents associated with this petition to amend and all comments received to date in this proceeding may be found on the Energy Commission's websites at:

Agenda

- 2:00 p.m.: Introduction and opening remarks.
- 2:10 p.m.: Open discussion on the petition and condition of certification language with petitioner and public.

Please note that the times provided above are tentative and subject to adjustment.

Written Comments

Written comments should be submitted by 4:00 p.m. on November 5, 2018 at the latest, although earlier submission is encouraged. If you wish to provide comments on these or related topics, please submit comments to the Energy Commission using the electronic commenting system on the Energy Commission's website. Visit the project website

https://www.energy.ca.gov/sitingcases/pre1999_page/index.php?xkm=ajdkha2385duhkasd211dsasjd5598fhajkhs and click on the "Comment on This Proceeding" or "Submit e-Comment" link. A full name, email address, comment title, and either a comment or an attached document (.doc, .docx, or .pdf format) is mandatory. After a challenge-response test used by the system to ensure that responses are generated by a human user and not a computer, click on the "Agree & Submit Your Comment" button to submit the comment to the Energy Commission Dockets Unit.

You are encouraged to use the electronic commenting system, described above, to submit comments. If you are unable to submit electronically, a paper copy of your comments may be submitted. For all comments, please include one of the docket numbers (**82-AFC-1C, 79-AFC-5C, 79-AFC-3C**) in the subject line or first paragraph of your comments and mail or hand-deliver them to:
