Energy Star Commitment Form for Control Module / EVSE LLC

Additional submitted attachment is included below.

CALeVIP ENERGY STAR® Commitment Form

Instructions for completing the CALeVIP ENERGY STAR Certification process are on the back of this form.

Name of manufacturer: Control Module Inc. (Sales Subsidiary EVSE LLC)

ENERGY STAR ID number (attach full agreement): 1142379

Date agreement executed: 9/7/18

Existing model number(s) seeking ENERGY STAR certification (attach model spec sheet):

Single Port Chargers

- EVSE LLC Model 3703 with Gateway Module
- EVSE LLC Model 3703 with Payment Module
- EVSE LLC Model 3704 with Gateway Module
- EVSE LLC Model 3704 with Payment Module
- EVSE LLC Model 3722 Ceiling Mount with Gateway Module
- EVSE LLC Model 3722 Ceiling Mount with Payment Module

Dual Port Chargers

- EVSE LLC Model 3703 with Gateway Module
- EVSE LLC Model 3703 with Payment Module
- EVSE LLC Model 3704 with Gateway Module
- EVSE LLC Model 3704 with Payment Module

Features for new models being developed (attach additional pages if needed):

Manufacturer is aware that to be eligible for CALeVIP, Level 2 chargers at a minimum must include the following features: network capable for data communication and repairs (meaning that your equipment must have been functioning on an EV charging network *prior* to submitting this form and includes completion of all network-to-charger integration testing), certified by a Nationally Recognized Testing Laboratory, capable of 6.2 kW or greater, have at least one J-1772 connector and accept multiple forms of payment, including credit cards.

Manufacturer understands that CALeVIP will reinstate ENERGY STAR as a mandatory requirement for chargers in future Level 2 projects. This mandatory requirement for projects is anticipated to be reinstated in early 2019.
