**KINDLY STOP THINKING THAT IT IS OK OR, THAT WE CANNOT
FIGURE OUT ANY PROPOSAL DESTINED TO POISON ALL OF US**

Dear California Energy Commissioners!

Please stop dawdling and, instead, lead the way on clean energy everywhere.

California must stop poisoning its citizens with methane and immediately transition toward zero-emission homes and businesses. This is your/our only sane choice.

I urge you, our Commissioners, to constantly make choices that take care of us, like yesterday.

Our IEPR must lead the way toward a successful transition by creating zero-emission buildings.

If a sentient human being is actually reading my comments and actually cares about my taking time to address you, I would love to speak with you personally.

Thank you, be well, take care and please, please, please only work to take great care of all of us all of the time,
Susie Duff
