**STATE OF CALIFORNIA**

**ENERGY RESOURCES CONSERVATION  
AND DEVELOPMENT COMMISSION**

***IN THE MATTER OF:***

**Docket No. 18-EPS-01**

**CITY OF RIVERSIDE EMISSION  
PERFORMANCE STANDARD  
COMPLIANCE FILING**

**I. INTRODUCTION**

Pursuant to Public Utilities Code section 8341(e)(1), the Energy Commission established a greenhouse gases emission performance standard (EPS) of 1,100 pounds carbon dioxide per megawatt hour, as codified in Title 20 of the California Code of Regulations, sections 2900 et seq. The Energy Commission is responsible for reviewing all long-term financial commitments entered into by local publicly owned electric utilities for compliance with the EPS.

**II. FINDINGS**

a. On October 3, 2018, the City of Riverside (Riverside) submitted a compliance filing requesting that the Energy Commission find that Riverside's Second Amendatory Power Sales Contract (contract) with the Intermountain Power Agency (IPA) for electricity from the Intermountain Power Project (IPP) Repowering Project, which involves replacing the existing coal facility as LADWP's source of generation with a new natural gas-fired combined cycle power plant, be determined to be compliant with the EPS;

b. On October 19, 2018, Energy Commission staff submitted a review of Riverside's filing and found it complete. Based on its review, staff recommended that the procurement be found to be in compliance with the EPS; and

c. The Energy Commission concurs with staff's recommendation that Riverside's compliance filing is complete and that the contract with IPA, as described in the compliance filing, complies with the EPS.

### **III. CONCLUSION AND ORDER**

The California Energy Commission hereby adopts staff's recommendation and orders that the long-term financial commitment described in Riverside's compliance filing complies with the Energy Commission's Greenhouse Gases Emission Performance Standard, as codified in Title 20 of the California Code of Regulations, sections 2900 *et seq.* Should the final design significantly change from the specifications provided in the compliance filing, Riverside must submit a subsequent compliance filing providing the updated information.

### **CERTIFICATION**

The undersigned Secretariat to the Commission does hereby certify that the foregoing is a full, true, and correct copy of an Order duly and regularly adopted at a meeting of the California Energy Commission held on November 7, 2018.
