**Dear Energy Commission Commissioners, in terms of trying to do it right**

I am concerned that your staff have not answered my questions.

*Additional submitted attachment is included below.*

Dear Energy Commission Commissioners,

In terms of trying to do it right.

What's the hurry, please see that my questions that your staff say are not relevant are answered.

Do Energy Commission staff believe that knowing the qualifications of the individuals rendering a legal opinion is not relevant? I am concerned that your staff have not answered this question.

Do Energy Commission staff believe that knowing the certifications of power plants listed in [SFA Cosumnes Power Plant Supplemental PTA NERC Compliance Documentation TN 224837](#) is not relevant? I am concerned that your staff have not answered this question.

The questions I have asked in the matter of 01-AFC-19C and the Energy Commission has not answered in [Cosumnes Power Plant - Petition to Amend - Staff Response to Non-Agency Comments TN 226034](#) are relevant in terms of trying to do it right.

Perhaps your staff are overlooking the kind of things that lead to “Dumb Inverters” and “Duck Charts”?

Steve Uhler
