### **System-Wide Voluntary Curtailment Extended for Electric Generation**

Due to ongoing cold weather conditions and high customer demand for natural gas, the system-wide voluntary curtailment of electric generation demand has been extended until 11:59 PM PCT, February 18, 2019.

SoCalGas has issued the system-wide voluntary curtailment order of electric generation demand in accordance with the [Aliso Canyon Withdrawal Protocol](#). The curtailment is a voluntary request coordinated through the Balancing Authorities (CAISO and LADWP) for them to limit and/or reduce electric generation demand on our system, to the extent it does not impact electric system integrity. All SoCalGas storage fields, including Aliso Canyon, are being used to provide system reliability.

In addition, with the current forecasted weather, SoCalGas is asking customers to conserve natural gas where possible.

All noncore customers should continue to monitor ENVOY® at [www.socalgasenvoy.com/](http://www.socalgasenvoy.com/) for further updates.

Please contact your Account Representative or the Gas Scheduling Helpline if you have any questions.
