Priority Hydrogen Station Location Recommendations

To Whom It May Concern:

I became an owner of a Toyota Mirai last year, but I was delayed on my decision mostly because of the availability of the hydrogen stations. I was very glad to see that there was a station in planning in Walnut Creek, so I purchased my FCEV hoping that I will have a relatively close hydrogen station when my gas card expires. But, it was recently withdrawn by the applicant's request.

Please consider relocating stations that have been withdrawn by the applicant's request on the highest priority as people like me were hoping for these stations, assuming they would follow through. I also believe Walnut Creek has a general population with likely higher income and more chance of owning or leasing an FCEV.

Thank you for your time!
