Renewables Portfolio Standard Compliance Period 2 (2014-2016) 18-RPS-02

Hello,

What conditions did SMUD satisfy to reduce total retail sales under PUC 399.30(c)(4)?

What was SMUD's reduction for the SMUD voluntary green pricing products or shared renewable energy resources?

Please name SMUD's voluntary green pricing products or shared renewable energy resources and provide SMUD's power source disclosure submissions and power content labels.

Where are SMUD's power content labels for the voluntary green pricing products for the years 2015 and 2016?

The Energy Commissions website has these labels.

Please explain how a SMUD customer who left SMUD in 2015 is compensated for the difference in RPS claimed renewables for 2014 that appear to be applied to 2016, when comparing power content labels.

Here are SMUD submissions I am questioning and commenting on:
