<b>Document Title:</b>	Pasadena Water and Power Electricity and Natural Gas Forecast Forms Demand Form 6
<b>Description:</b>	PWP is pleased to submit Form 6, the Incremental Demand-Side Program Methodology, which required under 19-IEPR-03 - Electricity and Natural Gas Demand Forecast
<b>Filer:</b>	Mandip Kaur Samra
<b>Organization:</b>	City of Pasadena, Water and Power Department
<b>Submitter Role:</b>	Public Agency
<b>Submission Date:</b>	4/9/2019 4:10:30 PM
<b>Docketed Date:</b>	4/9/2019

## Background

The City of Pasadena, Water and Power Department (also referred to as Pasadena Water and Power-“PWP”) developed the Incremental Demand-Side Program Methodology using historical data for such programs. A separate forecast was NOT developed to address potential future growth.

## Energy Efficiency Program Impacts

### Form 3.2

This form is only required of the IOU entities and is not part of the POU filing. PWP is a POU, hence, will not be reporting this data.

## Demand Response Program Impacts

### Form 3.4

At this time, PWP does not have a formal Demand Response program in place. At a time when such a program is developed, the impacts will be addressed in future IEPR filings.

## Renewable and Distributed Generation Program Impacts

This analysis is no longer required for the IEPR.
