CALIFORNIA ENERGY COMMISSION

1516 NINTH STREET SACRAMENTO, CA 95814-5512 www.energy.ca.gov

March 26, 2019

Ms. Valerie Winn Chief, State Agency Relations Pacific Gas and Electric Company 77 Beale Street, B23A San Francisco, CA 94105

RE:

2019 Integrated Energy Policy Report (IEPR): Request for Extension of Time to File Certain Electricity Resource Plans and Electricity Demand Forecasts

Dear Ms. Winn:

This letter is in response to your February 22, 2019, written request to extend the filing deadline for Pacific Gas and Electric (PG&E) to submit certain Electricity Resource Plans and Electricity Demand Forecast forms required by the Energy Commission in support of the 2019 IEPR. The Energy Commission adopted detailed instructions describing the scope and timing of these required data submissions at a Business Meeting on November 7, 2018.

PG&E is seeking an extension from April 26, 2019, to June 1, 2019, to submit Electricity Resource Plans forms S-1, S-2, and S-5 to the Energy Commission. According to the request, the extension will allow PG&E to submit the same forecast to the Energy Commission as it submits to the California Public Utilities Commission in the Energy Resource Recovery Account proceeding. In doing so, PG&E hopes to avoid any confusion that might arise by having two different vintages of forecast used in separate but parallel public proceedings.

Additionally, PG&E is seeking an extension from June 3, 2017, to June 19, 2019, to submit Electricity Demand forms 8.1a and 8.1b to the Energy Commission. It is in the Energy Commission's interest that the information related to PG&E's revenue requirements provided through these forms align with resource planning assessments delivered through the S-1, S-2, and S-5 forms.

I appreciate that PG&E wants to submit data of the highest quality and I find that good cause exists for the above-described extensions. In accordance with Title 20, California

Ms. Valerie Winn March 26, 2019 Page 2

Code of Regulations, section 1342(c), I grant the request for extending the deadlines to submit the Electricity Resource Plans forms S-1, S-2, and S-5, and the Electricity Demand forms 8.1a, and 8.1b.

Sincerely,

Drew Bohan

Executive Director
