ALAMITOS ENERGY CENTER PROJECT (AEC)  
(13-AFC-01C)**

On July 5, 2019, AES Alamos Energy, LLC filed a petition (petition) for a post-certification project change with the California Energy Commission (Energy Commission) requesting staff approval to modify the current conditions of certification pertaining to the auxiliary boiler for the Alamos Energy Center (AEC) 13-AFC-01C to conform with the South Coast Air Quality Management District's (SCAQMD) amended Title V permit for the AEC.

The AEC is a 1,040-megawatt (MW), natural gas-fired, combined-cycle electric generating facility. The project was certified by the Energy Commission on April 12, 2017, and began construction on June 9, 2017. The facility is located at 690 North Studebaker Road in the City of Long Beach.

This petition includes the following changes:

- Increase the total number of auxiliary boiler commissioning hours from 30 to 100 with no change in air emissions.
- Minor changes to permit conditions affecting the auxiliary boiler commissioning.
- Increase the minimum ammonia injection rate for the auxiliary boiler.
