CEC-57 (Revised 1/19)

NOTICE OF STAFF APPROVAL
PETITION FOR CHANGE OF OPERATIONAL CONTROL
for the
CALPEAK BORDER PROJECT (01-EP-14C)

On July 2, 2019, a petition was filed and docketed with the California Energy Commission (Energy Commission) requesting to change operational control of the CalPeak Border Project. The 49.5-megawatt, simple-cycle, natural gas-fired peaking plant was certified by the Energy Commission on July 11, 2001 with an on-line date of November 7, 2001. Energy Commission action was taken pursuant to Executive Orders D-26-01 and D-28-01 to help avoid or reduce blackouts and other adverse consequences of the energy supply emergency in the state. The facility is located in the city of San Diego.

The petition is requesting to change operational control of the facility from NAES back to the project owner, CalPeak Power-Border, LLC. In addition, the petition notes that the project name will change from "CalPeak Border Project" to "Border Project". A statement describing the change in operational control, signed under penalty of perjury by a representative of CalPeak Power-Border, LLC, was submitted as required by Title 20, California Code of Regulations, section 1769(b). The statement affirms that CalPeak Power-Border, LLC, understands the conditions of certification and agrees to comply with those conditions.

Staff has reviewed the petition and has determined that the petition meets the requirements of Title 20, California Code of Regulations, section 1769(b). Accordingly, staff hereby approves the petition to change operational control. Any person may file an objection to staff's approval within 14 days of the filing of this notice. Any such objection must state the grounds for the objection. If a person files such an objection, the petition will be considered by the Energy Commission at a noticed business meeting or hearing.

An objection to staff's approval may be submitted using the Energy Commission's e-Commenting feature. Go to the Energy Commission's webpage for this facility, cited above, click on the "Submit e-Comment" link, and follow the instructions in the on-line form. Be sure to include the facility name in your comments. Once submitted, the Energy Commission Dockets Unit reviews and docketed your comments, and you will receive an e-mail with a link to them.

The petition requesting the change of operational control has been docketed and is available on the Energy Commission's webpage for this facility at <https://ww2.energy.ca.gov/sitingcases/peakers/border/index.html>.

This Notice of Staff Approval is being mailed to interested parties on the project mail list who may want to object.

Written objections may also be mailed or hand-delivered to:

California Energy Commission
Dockets Unit, MS-4
Docket No. 01-EP-14C
1516 Ninth Street
Sacramento, CA 95814-5512

All objections and materials filed with and approved by the Dockets Unit will be added to the facility Docket Log and become publicly accessible on the Energy Commission's webpage for the facility. All objections on the petition must be received by August 9, 2019.

If you have questions about this notice, please contact Christine Root, Compliance Office Manager, at (916) 654- 4745, or by fax to (916) 654-3882, or via e-mail at Christine.Root@energy.ca.gov.

For information on participating in the Energy Commission's review of the petition, please contact the Public Adviser, at (916) 654-4489 or (800) 822-6228 (toll-free in California) or send your e-mail to publicadviser@energy.ca.gov.

News media inquiries should be directed to the Energy Commission Media Office at (916) 654-4989, or by e-mail to mediaoffice@energy.ca.gov.
