Request for 30-Day Extension to Respond

The Heat Is Power Association (HiP) is the trade association for the Waste Heat to Power (â€œWHPâ€) industry.

Please see our website at www.heatpower.org. One of HiPâ€™s missions is to educate policymakers about the clean energy opportunity presented by technologies that capture waste heat.

We appreciate the California Energy Commissionâ€™s interest in innovative waste heat to power technologies that can reduce the use of natural gas and the associated emissions and we are anxious to provide you with information responding to your July 5, 2019 request in this docket. Unfortunately, we received the Commissionâ€™s request for information at a busy time.

We are here requesting a 30-day extension to allow HiP to respond to the questions presented in your July 5, 2019 request on or before September 5, 2019.

Also, we request that you add my name and contact information to the notice list for this proceeding.

RE: **Request for Extension of Time to Respond;
Opportunity to Shape Waste Heat Recovery Research;
Californian Energy Commission Docket 19-ERDD-1**

Dear Mr. Pina:

The Heat Is Power Association (HiP) is the trade association for the Waste Heat to Power (“WHP”) industry. Please see our website at www.heatispower.org. One of HiP’s missions is to educate policymakers about the clean energy opportunity presented by technologies that capture waste heat.

We appreciate the California Energy Commission’s interest in innovative waste heat to power technologies that can reduce the use of natural gas and the associated emissions and we are anxious to provide you with information responding to your July 5, 2019 request in this docket. Unfortunately, we received the Commission’s request for information at a busy time.

We are here requesting a 30-day extension to allow HiP to respond to the questions presented in your July 5, 2019 request on or before September 5, 2019.

Also, we request that you add my name and contact information to the notice list for this proceeding.

Thank you very much,
