**Request for 20 CCR 1234 Jurisdictional Determination for implementation of PUC 399.30 (c)(4)**

Request for 20 CCR 1234 Jurisdictional Determination for implementation of PUC 399.30 (c)(4)

Activity potentially regulated, monetizing renewable energy credits and ownership of environmental attributes related to eligible renewable energy credits as a participating customer pursuant to a green pricing program or shared renewable energy generation program.

What regulations were adopted by the commission for implementation of 399.30 (c)(4)?

Does the commission have jurisdiction over the the definition of "a participating customer pursuant to a voluntary green pricing or shared renewable generation program"?

Does the commission have jurisdiction over the the definition of "a voluntary green pricing or shared renewable generation program"?

Does the commission have jurisdiction over the the definition of monetizing renewable energy credits?

Does the commission have jurisdiction over allowing a utility to not produce a power content label for marketing and sales of a voluntary green pricing or shared renewable generation program?

Can the commission "allow people to report early, even if the rules aren't in place if we have something, you know, to OAL kind of as a voluntary reporting with the ability to update it once they become effective."? See lines 15-18 of page 25 in <https://efiling.energy.ca.gov/GetDocument.aspx?tn=212975>

May the commission utilize a form to implement 399.30 (c)(4) without a adopted regulation? Form sample is attached.
