Docket Number: 19-IEPR-06

Request for Extension: Comments on 2019 Energy Efficiency Action Plan

Please see attached request for extending deadline to file comments on the 2019 EE Action Plan.

Additional submitted attachment is included below.

**Comments of the Natural Resources Defense Council (NRDC) on the
Workshop on the Draft 2018 Integrated Energy Policy Report (2018 IEPR), Volume II
Docket Number 18-IEPR-01**

November 2, 2018

Carmelita Miller (The Greenlining Institute) CarmelitaM@greenlining.org**

The Natural Resources Defense Council (NRDC), The Sierra Club, The Greenlining Institute, and the California Housing Partnership would like to request an extension to the deadline for filing comments on the 2019 California Energy Efficiency Action Plan (EEAP). The 2019 EEAP deals with complex and interrelated issues of doubling California's energy efficiency achievements, decarbonizing the building sector, and reducing energy efficiency barriers in low income and disadvantaged communities.

We request that the date for filing comments be extended from September 10th to September 24th to be able to provide meaningful and effective feedback on the 2019 EEAP. This will also allow us to better think through and incorporate the presentations (and related discussion) from the August 27th Integrated Energy Policy Report (IEPR) workshop on the EEAP. Thank you for considering our request.
