Dear Docket Office,

I'm a concerned 5th generation Californian who is watching it go to pot with power grabs like what SMUD has on the table with solar. I want to say 'be the leader of the nation here'. Please don't deny thousands of new homeowners and renters the savings and security of rooftop solar and storage, and gut the state. Be an example of a great state by encouraging solar and storage - especially new homes. Don't let your actions be all about greed. Look at the outcry of the first shut off. People are leaving California in the thousands!!

Sincerely,  
Deborah Horne
