Dear Docket Office,

Please oppose the SMUD staff proposal that will deny thousands of new homeowners and renters the savings and security of rooftop solar and storage, and gut the state "Solar Homes" plan. SMUD's proposal will:

- * Discourage solar from being installed directly on new homes.
- * Make it harder for homeowners to add solar and storage later on.
- * Deny new residents the chance to save hundreds of dollars on their energy bills each year.
- * Deny new residents the ability to keep the lights on during blackouts.

It also limits the consumer the ability to be independent and use their money wisely. SMUD is trying to make ALL consumers dependent on SMUD which only makes them rich. It appears to me (obviously) SMUD is only concerned about their own revenue or loss of revenue as more homeowners purchase solar. It sure seems to be backwards thinking for the overall economy. The more money in the pocket of the consumer means more spending and the more the consumer spends the better the economy. Consumers can't spend money and increase the state's economy when utilities prevent them from using their money to make these purchases. Please return to us our freedom as Americans to make the best of our household income! Thank you

Sincerely,
Mike Wallace
