Agenda

The workshop will begin with opening comments from SB 100 agency principals.

Staff from the three agencies will present on the state’s climate and energy strategies efforts, including CARB’s Climate Change Scoping Plan and an overview of CPUC and CEC clean energy programs. Staff will outline the report development process, describing report requirements, interagency coordination, public engagement, and topical workshop planning. Additionally, staff will discuss key scoping questions for the joint agency report and seek input on key energy issues for Southern California to be considered in the process.

This will be followed by public comment. Following public comment, the principals will provide closing remarks.

Background

SB 100 requires the CEC, CPUC, and CARB to complete a joint agency report to the Legislature evaluating the 100 percent zero-carbon electricity policy. The SB 100 report will be informed by a public process and qualitative and quantitative analyses to address the requirements and intent of the statute.

The requirement is codified in Public Utilities Code section 454.53, and the full text is available at

https://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=PUC§ionNum=454.53.

Public Comment

Oral comments. Commissioners will accept oral comments at the end of the workshop. Public comments may be limited to three minutes or less per speaker and to one person per organization.
