## **BSTD-19-08 Art Rosenfeld Room, Energy Efficiency spoken here**

BSTD-19-08 Art Rosenfeld Room, Energy Efficiency spoken here

Energy efficiency means adapting technology to meet consumer needs while using less energy.

What in SMUD's Community Solar Application meets the above definition?

Perhaps the only technology to meet consumer needs while using less energy in 150.1(b)1 is contained in JA11.5.1.

SMUD does not demonstrate all minimum capabilities found JA11.5.1 in their Community Solar Application.

Please explain how SMUD's Community Solar Application fulfills the requirements of JA11.5.1. and thus worthy of Energy Commission approval.
