California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Wallace Iimura

From: [Alejandro Artigas](#)

California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California. The forced power outages from fire danger and high winds have clearly shown that our aging electricity transmission lines can't handle the addition of more new homes. The solution is rooftop solar.

Sincerely,

Sincerely,
Lewis Kawecki

California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California. Large-scale solar installations can also help move away from fossil fuels but siting them often means habitat destruction and other problems while adding solar to each rooftop is a no-brainer and allows us to generate power where it's needed. Please keep and strengthen the requirement to install solar on each new built home

Sincerely,

Sincerely,
Stefanie Pruegel
