California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,  
John Varga

Dear Docket Office,

Please oppose the SMUD staff proposal that will deny thousands of new homeowners and renters the savings and security of rooftop solar and storage, and gut the state "Solar Homes" plan. SMUD's proposal will:

- \* Discourage solar from being installed directly on new homes.
- \* Make it harder for homeowners to add solar and storage later on.
- \* Deny new residents the chance to save hundreds of dollars on their energy bills each year.
- \* Deny new residents the ability to keep the lights on during blackouts.

It seems as though you're trying to keep the state from being green and meeting its fossil fuel independence goal. I also remember not so many years ago the state was experiencing brown outs during peak use hours. That seems not to have happened since the state encouraged roof top solar.

Sincerely,  
Frederick B. Fitts
