## **Energy company SDG&E**

I want energy commissioner to pressure SDGE not to charge us triple between 4 PM and 9 PM that's absolutely ridiculous people come home after work do their washing dishwasher is on cooking and they make plenty of profit.

Sacramento officials who work for the people of California receive money from the energy lobbyist shame on you all because this money received by the elected officials, they won't pressure energy companies like PGE do the right thing upgrade their pools clean around their energy pools to make sure fire was start by them you don't pressure them but you do take their money so you're pregnant to the companies you all have blood in your hand next election I make sure we won't elect you all who's involved

I hope someone reads this comment i. I live in Grandon Village Apartments San Marcos we do have solar panels but some of them needs to be upgraded or maintain services new owner of this buildings won't do it. seniors have an a hard time With heat as you know in France Seniors die because heat wave .you should pressure new company who bought these buildings to upgrade And maintain services so we could take advantage of solar .

Thank you very much best regards
