Subject: RE: SMUD community solar application

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Yes, as written, we oppose SMUD's community solar approach. Attaching our comments and I can speak by phone. My cell is 850-559-0929.

In close, we support community solar, but opposed SMUD's approach because it was so far removed from community solar (proximity to the community, size, and equivalent benefits). Community solar is key for multifamily and roofs inadequate (for whatever reason) to host on-site solar. Just can't get comfortable with using utility-scale to circumvent community scale and on-site solar.

Thanks for reaching out, and will do my best to pick up if I see a "916" number or we can schedule a time that works for you.

Kind regards, Jeremy

Hi Todd--Sorry I was searching for you but got your name wrong.

Hi Jeremy--My boss was left with the impression after the hearing last week that Lennar opposes SMUD's community solar application. Is this correct?

Hi Bryan,

My name is Todd Farhat, I manage utility relations for Sunstreet.

On the 13th I attended the CEC's meeting and had a chance to comments on SMUD's Neighborhood Solar Share application.

I wanted to link you up Jeremy Susac. Jeremy is our VP of Government affairs and heads up our Community Shared Solar efforts. He can articulate both Sunstreet and Lennar's position better than anyone else.

Thanks for reaching out.

-Todd Farhat

Hi Cliff,

I work for Commissioner Andrew McAllister—I got your email from a comment you submitted to the docket opposing SMUD's community solar application. I believe another representative from SunStreet testified at the business meeting last week in opposition as well. Could you help me understand if SunStreet/Lennar was taking a formal opposition position on SMUD's proposal? If so, I was wondering if I could set up a quick call or meeting with whomever at SunStreet/Lennar you think best to get your perspective on the matter.

Bryan Early
