In the Matter of:

Application For Small Power Plant
Exemption for the **WALSH BACKUP
GENERATING FACILITY**

DOCKET NO: 19-SPPE-2

**651 WALSH PARTNERS, LLC'S
SUPPLEMENTAL STATUS REPORT
3**

651 Walsh Partners, LLC (WP, LLC) previously filed Supplemental Status Report 2 on October 31, 2019 to update the Committee on the progress of the proceeding and to assist the Committee in developing a schedule. In that response WP, LLC, informed the Committee that some of the information requested by Staff required additional longer term studies. WP, LLC docketed the outstanding studies on November 15, 2019. They included a report on historical resources requested by Data Request 17 (TN 230740) and a Cumulative Air Quality Analysis in response to Data Request 8 (TN 230764) and consistent with the method used by Staff in its Initial Study/Mitigated Negative Declaration prepared for the Laurelwood Data Center Project.

Since the filing of the last Status Report, Staff raised another issue based on its conversation with a planner for the San Jose Airport. This has resulted in WP, LLC retaining a specialized airport planning consultant to review additional protected surfaces for the San Jose Airport. This report will be completed by December 9, 2019 and docketed immediately thereafter.

WP, LLC believes that Staff has all it needs to complete its Proposed IS/MND in except for the additional airport planning report.

Dated: December 2, 2019

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Scott A. Galati", with a horizontal line underneath it.
