To the Board of Directors Transition Habitat Conservancy

We have audited the accompanying financial statements of Transition Habitat Conservancy (a nonprofit organization), which are comprised of the statement of financial position as of December 31, 2018, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Transition Habitat Conservancy as of December 31, 2018, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Effect of Adopting New Accounting Standards

As discussed in Note 1, Transition Habitat Conservancy adopted the provisions of Financial Accounting Standards Board Accounting Standards Update (ASU) 2016-14, *Non-For-Profit Entities (Topic 958): Presentation of Financial Statements of Non-for-Profit Entities* as of and for the year ended December 31, 2018. The requirements of ASU 2016-14 have been applied to the period presented. Our opinion is not modified with respect to this matter.

### Note 1: Nature of Organization and Summary of Significant Accounting Policies

### **Nature of Organization**

Transition Habitat Conservancy (the Organization) is a nonprofit corporation operating in San Bernardino and Los Angeles Counties, California. The Organization's mission is to manage and restore lands and to enforce any prohibitions of use.

The Organization's primary sources of revenue are government grants, contributions from the public, and fees from businesses requiring environmental mitigation services. These resources are spent restoring and managing land and acquiring conservation land and easements.

# Summary of Significant Accounting Policies

### **Cash and Equivalents**

For purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

### Accounts Receivable and Deferred Revenue

The Organization charges fees for mitigation and other land management services. Generally, a retainer is received in advance of the performance of services, and charges are billed against the retainer. From time to time, services are performed before a new retainer is received. When the charges for services exceed the retainer, the Organization reports a receivable. When the balance of the retainer exceeds the charges for services, deferred revenue is reported. The Organization does not believe any of the receivables at December 31, 2018 are uncollectible.

### **Restricted Cash and Investments**

Cash and investments restricted by grantors or donors for mitigation or acquisition of property is not available for operating or administrative purposes.

### Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of net assets. Unrealized gains and losses are included in the change in net assets. Investment income and gains restricted by a donor are reported as increases in unrestricted net assets if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized.

# Note 1: Nature of Organization and Summary of Significant Accounting Policies (continued)

### **Basis of Accounting**

The financial statements of the Organization have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. The financial statements are presented in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-for-Profit Organizations" (the "Guide"). (ASC) 958-205 was effective January 1, 2018.

Under the provisions of the Guide, net assets and revenues, and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Organization and changes therein are classified as follows:

*Net assets without donor restrictions:* Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. The Organization's board may designate assets without restrictions for specific operational purposes from time to time.

*Net assets with donor restrictions:* Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Non-Profit Organization or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

### **Property and Equipment**

The Organization capitalizes property and equipment over \$1,000. Lesser amounts are expensed. Purchased property and equipment is capitalized at cost. Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time. Property and equipment are depreciated using the straight-line method over estimated useful lives as follows:

Furniture	7 years
Equipment and vehicles	5 years

# Note 1: Nature of Organization and Summary of Significant Accounting Policies (continued)

### Adoption of New Accounting Standard

Commencing on January 1, 2018, the organization adopted the provisions of FASB issued Accounting Standards Update (ASU) 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*, which became effective. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. The Organization has implemented ASU 2016-14 and has adjusted the presentation in these financial statements accordingly.

### **Expense Allocation**

The costs of providing program and administrative have been summarized on a functional basis in the Statement of Activities and the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

### **Conservation Lands and Easements**

The Organization records land and land interests at cost if purchased or at fair value at the date of acquisition, if all or part of the land was received as a donation. Fair value is generally determined by appraisal at the time of acquisition and is not subsequently adjusted. Costs related to the acquisition of land and land interests, such as appraisals, surveys, and initial restoration, are included in the total cost of the land or land interest.

Conservation land is real property with significant ecological value. The Organization's portfolio of conservation land includes land it intends to own and maintain in perpetuity and land it intends to transfer to other organizations who will manage the lands in a similar fashion.

Conservation easements are comprised of listed rights and/or restrictions over the owned property that grant the Organization the right to protect and or mitigate the property.

### **Acquisition Expenses**

Costs associated with unsuccessful attempts to acquire land or land interests are expensed as program expenses as soon as the Organization is notified that the acquisition will not be completed.

### **Contributed Services**

The Organization records in-kind revenue when it receives donated services in the form of labor requiring specialized skill and knowledge. For the year ended December 31, 2018, the Organization recognized \$110,816 in revenue from land management services provided by volunteers. In addition, individuals volunteer their time and perform a variety of tasks that assist the Organization with its mailing and filing tasks, but these services do not meet the criteria for recognition as contributed services.

# Note 1: Nature of Organization and Summary of Significant Accounting Policies (continued)

### **Income Taxes**

The Organization is a not-for-profit organization that is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation. The Organization is also exempt from state taxation under similar California Revenue and Taxation code.

The Organization's federal and state returns for the years ending 2015, 2016, 2017 and 2018 are subject to examination by the IRS and Franchise Tax Board, generally for three and four years, respectively, after they were filed.

### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### Fair Value Measurements

The Organization measures financial instruments at fair value using valuation techniques that are ranked in three levels depending on the degree of objectivity of the inputs used with each level:

Level 1 inputs – quoted prices in active markets for identical assets

Level 2 inputs - significant other observable inputs

Level 3 inputs – significant unobservable inputs

Cash and cash equivalents are valued at their carrying amount due to their short maturities. Investments in available for sale securities are measured on a recurring basis using quoted market prices.

### Note 8: Endowment Funds

The Organization's permanently restricted endowments were established with contributions for the perpetual management of a conservation lands and easements. As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Organization has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted net assets until those amounts are appropriated for expenditure by the Organization, in a manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, the Organization considers the following factors in making the determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds: (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

The Organization has adopted investment and spending policies for endowment assets that attempt to subject the funds to low investment risk and provide the earnings needed for the established purposes. Endowment assets are invested in equities, exchange-traded and closed-end funds, mutual funds, and unit investment trusts.

The endowments for the perpetual management of conservation land and easements were established by contributions subject to restrictions, so they are classified as permanently restricted. A Property Analysis Record (PAR) was developed to establish the expected per-acre cost of providing perpetual management of the conservation easements and the present value of the original endowments based on an expected 3.50% return per annum. In keeping with donors' intents, earnings from endowments will accumulate in the permanent fund for two years. Subsequent earnings will be recorded as temporarily restricted net assets until they are appropriated for spending.

In 2018, the Conservancy received insurance proceeds of \$41,700 and will use the funds to restore the land back to its original state and keep it available as habitat.
