State of California
State Energy Resources Conservation and Development Commission

In the matter of:

Sequoia Data Center

Docket 19-SPPE-03

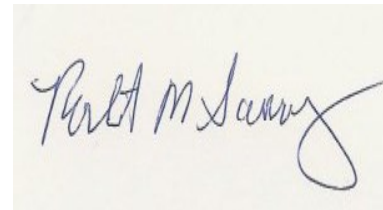

Robert Sarvey's Motion to suspend the procedural schedule and provide an immediate response.

Intervenor Robert Sarvey hereby moves to suspend the entire procedural schedule for the Sequoia Data Center 19-SPPE-03. I request that the proceeding be suspended for four weeks while the State of California and the nation deal with the emerging health issues related to the coronavirus. Good cause exists for the request as the State is in chaos attempting to deal with the unprecedented family and work disruptions. It is important to postpone public meetings like the recent hearing on the motion to compel a cumulative impact analysis as many people in the Art Rosenfeld room could have been or are now infected with the virus. We must protect the commission staff, commissioners, the applicant and the intervenors.

Clearly no evidentiary hearings, which must include the public, should be held as public assembly provides an opportunity for the virus to spread rampantly. The entire procedural schedule should be postponed as it is difficult for the parties to provide a decent work product currently due to the work and family disruptions.

I request an immediate response to the motion as the request is time sensitive.
