PHCA recommends addition to Eligible Technologies

Dear CEC team,

Thanks for hosting this award program. We'd like to respectfully propose that you include high recovery efficiency (70% or higher) HRV's in your list of Eligible Technologies. This recommendation is based on the CASE report for our Low-Rise Multifamily Passive House study (https://drive.google.com/file/d/1AriXQVW_n1r9wB2UIQfMdT3J_e0P4P-2/view), which confirmed that this HVAC equipment is beneficial in all of California's sixteen climate zones. It therefore should be highlighted in this program.

Best regards,
Bronwyn Barry
on behalf of Passive House California (PHCA)
